- Developed Website Fullstack with **Mern Stack.**
- Successfully integrated the Authentication system and efficient data management into the website, enhancing the user experience by providing a secure and user-friendly environment. View

F&C EVENTS   2020 – 2024
Founder and Event Manager   *Bhopal, India*

- Founded and managed an event management business.
- Implemented and optimized logistical workflows to ensure seamless event execution, demonstrating strong problem-solving and organizational abilities.

PROJECTS

Quiz App(Quizzy)   *MongoDB, Express.js, React.js, Node.js*   Link

- Developed a comprehensive quiz application featuring user authentication with login and signup functionality.
- Designed result visualization with interactive graphs showcasing topic-wise performance and tabular summaries for detailed analysis.

URL-Shortener-App(LinkSnip)   *MongoDB, Express.js, React.js, Node.js*   Link

- Developed a backend focused website for **shortening a URL**

Restaurant App (FoodGenie)   *React,Firebase*   Link-Admin Part Link-User Part

- Developed **a React based restaurant web-app** that allows the users to select the products and add them onto the cart with the power in their hand to edit it as per their need and place orders with live status being updated regarding their order initiated by the admin. Also the admin after being registered can update the menu/categories/recipes/order status as he needs
- Uses **modern concepts of React** that makes the application user friendly and more efficient.
